

ROC STOC™ SURVEILLANCE PLATFORM

The Roc Stoc™ is a unique, advanced piece of tactical equipment that allows users to stabilize surveillance cameras and spotting scope equipment in the field. The Roc Stoc™ was created to give users the ability to easily combine new and existing optical and electro-optical components and systems. As a result, the platforms and kits increase the number and types of missions the integrated components and systems can be used for. The Roc Stoc™ features an integrated Weaver-Picatinny style rail interface as well as a bi-pod. The Roc Stoc™ is compatible with just about anything you can mount on a rifle or rail based firearm.
