

SOP-LW - Spotter's Optical Platform - Light Weight

The Spotter's Optical Platform (SOP) was designed and developed to integrate optical and electro-optical components in different and creative ways to meet changing mission requirements. A standard spotting scope can be combined with other EO devices to give the SOP-LW platform a new capabilities to see, acquire, target and record images on the battlefield day or night (24/7). By combining already fielded EO systems with the SOP platform and accessories, the user can greatly increase the number and types of missions the systems can now perform. Maximum effort has been made to make the platform compatible with a huge array of fielded optics, laser systems and other optical EO sensors.

Features & Benefits:

- Creates new capabilities for day optic systems by effectively combining with image intensified, thermal and multispectral sensors.
- Platform gives the user flexibility to reconfigure rapidly and securely as the mission and conditions change.
- Better and further vision for leaders and long range weapon crew 24/7.
- Small, lightweight and inexpensive platform to create new capabilities.
- Roc Stoc™ is available in different colors, including desert tan, olive drab and black.

SOP-LW Kit (Optional Includes):

- Leupold 12 40x60mm Spotter Scope
- ITT NEPVS-Monocular
- MONOCAM™ - Digital Camera Kit
- 3x Afocal Magnifier Lens
- Laser Pointer / Illuminator

SOP-LW Kit shown with Leupold Scope and Leupold scope mounting bracket - both sold separately.

PART #: MPK- 600-330

SOP-LW Kit (Basic):

- Roc Stoc™ – Shoulder mount with rail assembly and bi-pod;
- Scout Rail;
- Tripod Quick Disconnect – LaRue LT-666;
- Manfrotto Grip Action Ballhead;
- Padded Soft Carry Case.
